Summary of reasons for decision:

The computer image file printout promotes and supports the exploitation of children for sexual purposes and is deemed objectionable. It depicts a young boy exposing his buttocks to the camera for the viewer's close inspection in a manner that suggests he is sexually available. The image focuses attention solely on his physically immature body. The most likely purpose of the image is to sexually titillate or arouse people with a prurient sexual interest in children. The publication encourages this and legitimises the idea that it is appropriate and acceptable for adults to become sexually aroused by children. There is no context to suggest a non-sexual reading.
